## Objective

I am a second-year Applied Computing student at the University of Mauritius, looking for an internship in software or web development. I want to apply my technical skills and gain practical experience in a professional environment.

## Personal Projects

- **Appointment Management Web Application**
  - End-to-end development (database, back-end, user interface) with user authentication.
  - Clients search for, book and cancel time slots online; the business publishes its availability and tracks appointments.
  - Technologies: HTML, CSS, JavaScript (AJAX), PHP, MySQL, GitHub
- **Web application for selling products**
  - Developed a web application that allows users to post products for sale and browse all products listed by other users.
  - Enabled buyers to purchase a product by contacting the user who posted it, using a relational database with two tables, users and product.
  - Technologies used: PHP, HTML, MySQL.
- **Library Management System – Object-Oriented Programming**
  - Developed a complete library management application independently.
  - Added features to create, update, and delete books, manage loans and returns, and handle user accounts.
  - Technologies: Java, Python.

## Professional Experience

- **Burger King** Nov 2025 - Sept 2026
  Cashier/ fast food operative
  - Welcomed customers and responded to their requests.
  - Kept the workstation organised in a fast-paced environment
- **Kanto Beauty** 2024 - 2025
  Customer Advisor
  - Welcomed customers and identified their needs.
  - Recommended products based on their needs and preferences

## Education

- **University of Mauritius** 2025- Present
  BSc (Hons) Applied Computing
- **ISPM Antsobolo Antananarivo** 2022-2023
  Computer Science Studies
- **Lycée Maria Manjaka** 2022
  Baccalaureate

## Technical Skills

-
  - **Programming:** Java, Python, PHP , JavaScript
  - **Web**: HTML, CSS , jQuery, AJAX, React
  - **Databases**: SQL

- **Tools**: Git/GitHub
- **Concepts**: Object-oriented programming, interface design, database integration

## Personal Skills

- 
  - Teamwork
  - Ability to work independently
  - Customer service and communication

## Languages

- Français : C1
- Anglais : B2
- Allemand :B1
